Subject: PFOS and PFOA documents for ATSDR review
Attachments: PFOA HA Draft 021216.docx; PFOA Post External Review 010816.docx; HESD PFOS 121715_lgtg.docx

Importance: High

Frank,

Thanks very much for getting back to me today. Attached above are the internal review drafts of three documents we have developed. The first (PFOA HA 021616) is the 80 page document I described. The more detailed Health Effects Support Documents (HESD) for PFOA (PFOA 010816) and PFOS (PFOS 121715) are also provided for the sake of completeness; these are much longer and complex documents. The HESDs reflect comments from a public external review held in 2014. The HA summarizes the key conclusions and points of these more detailed documents.

These documents are still in review internally at EPA and may still change as a result of comments we receive. We should have the PFOS HA available today or tomorrow. We are requesting that NIOSH focus on the dose-response sections of the HA for PFOA (section 6.0), including our selection of the critical study and the exposure scenario. We are requesting any comments you may have within a week (3/3/16).

Many thanks, Betsy
